WE ARE LOOKING FOR A SENIOR DATA SCIENTIST

franck.AI is a young, innovative data science company founded by Dr. Isabell Franck. Our Munich-based company combines cutting edge research with industrial experience. Our customers are aiming to optimize automated, highly complex industrial production processes. We help our customers to generate an optimized production, reduce costs and achieve environmental benefits as well as to gain a competitive advantage.

CTO Senior Data Scientist - Fulltime (m/ f/ d)

Are you someone with a passion for data, analytics, insights and technology?

You are a Senior Data Scientist and/ or Software Developer responsible for the development and validation of our software product ProductionPerfect. You have the willingness to tackle hard problems in innovative ways.

Key responsibilities:

- Creating innovative solutions at the cutting edge of Bayesian inference and machine learning
- Design, prototype, implement and test predictive and prescriptive analytic models
- Building and updating our software product ProductionPerfect
- Verification and validation of ProductionPerfect and our customers' needs
- Estimate engineering effort, plan implementation, and rollout system changes
- Responsible for taking decision of appropriate technology and constantly thinking about improving the technology
- Participate in code reviews, design reviews and architecture discussions
- Supervise and mentor colleagues and students.

What we offer:

- A small, personal team with flat hierarchies
- Development of an innovative and future-oriented software product
- Flexible working hours, home office options and varied tasks
- Opportunities to shape and realize your ideas
- Supportive work environment
- Presentations at conferences
- Participation in the company growth
- Opportunity for hyper growth as you become an integral part of a rapidly growing organization.

This is what distinguishes you:

- Several years of practical experience as a data scientist
- Strong experience in Bayesian statistics and uncertainty quantification
- Experience in machine learning
- Experience in data science tools, e.g. Python
- You are reliable, responsible and like to think actively with us and our clients
- You work independently
- Fluent in German.
